EDUCATION

Guru Gobind Singh Indraprastha University – Delhi (Dr. Akhilesh Das Gupta Institute of Professional Studies – Delhi) Bachelor of Technology (Information Technology) CGPA: 8.66	2022-2026
Salwan Public School – New Delhi PCM with Computer Science	2021-2022

PROJECTS

AI-Powered Contract Review System • Fine-tuned Mistral-7B using LoRA/QLoRA on legal-domain datasets including 13,000+ annotated clauses from 510 commercial contracts (CUAD) and 126,000+ retrieval pairs from ACORD , reducing contract analysis time by over 80% compared to manual review. • Built parsing and retrieval pipeline using MiniLM embeddings and FAISS (Vector DB) to extract and analyze relevant clauses from 100+ page contracts within 2 minutes . • Deployed model inference through FastAPI and ngrok , accelerating response generation by over 80% compared to local CPU execution.	May 2026
Hybrid AI Chat- Travel Assistant • Built a hybrid AI knowledge retrieval system integrating 2 DBs, Neo4j (Graph DB) for graph-based reasoning and Pinecone (Vector DB) for semantic similarity search, enabling context-aware information retrieval.	October 2025
FuzzyTube • Engineered a pipeline to fetch YouTube transcripts via API, apply Fuzzy Logic and NLP keyword extraction and generate timestamped highlights of stock mentions. • Accelerated decision-making for retail traders by reducing manual video-scanning time by approximately 70% per video.	October 2024
Budget Manager • Developed a budget management application using Random Forest to analyze transactions, predict expenses, and generate savings recommendations, reducing manual financial analysis time by 50% , with results integrated into an interactive Streamlit web app.	July 2024

EXPERIENCE

Artificial Intelligence Intern – Infosys Springboard • Collaborated with a team of 5+ members to build an AI-powered contract compliance checker using LangChain, Hugging Face, Streamlit, and APIs (Groq, Google Sheets) to evaluate 50+ contracts against 2 regulations , GDPR and HIPAA. • Streamlined data ingestion and regulatory retrieval through API integration , reducing manual compliance checks by 60% , and developed a Streamlit dashboard for visualizing results and reviewing contract data.	August 2025-October 2025
AI-ML Intern – QSPEAR Consultancy Services • Developed a Smart Health Risk Predictor using 3+ algorithms Logistic Regression, XGBoost, Random Forest, and KNN to predict stroke risk and provide health recommendations achieving over 85% accuracy . • Groups users in 7 clusters using K-Means Clustering and detects anomaly using KNN and integrated results into Streamlit webapp.	June 2025 – July 2025

SKILLS

Languages: Python, C, C++, HTML, CSS
Databases: MySQL (Relational), Pinecone (Vector DB), Neo4j (graph-based), FAISS
AI/ML and Frameworks: PyTorch, LangChain, OCR (EasyOCR), RAG, FastAPI, Hugging Face, scikit-learn, Tensorflow, NLTK, MCP
Data Analytics: Pandas, NumPy, Matplotlib, MS-Excel
Web and Dev Tools: Flask, Streamlit, VS Code, Git, GitHub, Jupyter Notebook, Docker, Ngrok

CERTIFICATIONS and ACHIEVEMENTS

Introduction to Model Context Protocol – Anthropic	May 2026
Published Research Paper on AI and Human Collaboration on Language Assessment International Journal on Science and Technology (IJSAT), E-ISSN 2229-7677, 2025. DOI: 0.71097/IJSAT.v16.i4.9449	Nov 2025
Training Program on Artificial Intelligence and Machine Learning – IBM	August 2024
